APPENDIX: WORD LISTS BY WEIGHTED SUM (WS)

==========

Numerical Distributions in the English Lexicon

A Data-Only Analysis of 455,247 Words

The Symphony 135/137 Collective

January 3, 2026

Released under CC0 1.0 Universal (Public Domain Dedication)

==========

This appendix contains complete word lists for selected Weighted Sum (WS) values.

WS = $\Sigma(L_i \times i)$ where L_i is the letter value (A=1 to Z=26) and i is position.

These lists are provided for linguistic examination without interpretation.
